Executive Producer
For the Love of Liberty
17003 Ventura Blvd #200
Encino, CA 91316

Dear Mr. Gossett,

Thank you for sharing the progress of this important documentary, it is a feature that has been sorely needed. History has not given the proper light to the African Americans service people who has fought and died for our liberties.

The part that illustrates the role of the 369th Infantry Regiment in World War One is truly gratifying and will be very useful to schools when it is released. We at the 369th Historical Society are constantly telling the historical feats accomplished by the soldiers of the 369th. Indeed it helps the active soldiers of the 369th now a Sustainment brigade build their moral, that helps them accomplish, their training tasks, goals and missions.

Please keep me on your mailing list so when the project is completed, this documentary will be a great aid for us to get the history to our young people.

Thank you, sincerely,

NATHANIEL JAMES
Major General AUS
President of the 369th Historical Society
And the 369th Veterans' Association, Inc
